EDUCATION

The University of Queensland

Bachelor of Computer Science and Commerce | 2024 – 2027 | 6.6 Cumulative GPA

- Coursework has included object-oriented programming, embedded systems, data structures and algorithms, statistics, discrete mathematics, database design, accounting, financial modelling, and information systems.
- 2x Dean's Commendation for Academic Excellence.

University of Oxford, Lady Margaret Hall College

AI and ML: Theory and Practice | In-Person | June – July, 2025 | 88.67% - First Class Honours

A competitively selected summer programme. Coursework included development of multi-parameter linear regression models from a foundational perspective and development of fully connected and convolutional neural networks using PyTorch, Pandas, NumPy, and sklearn frameworks for image classification. Data representation using matplotlib.

EXPERIENCE

Ubo Pod (San Francisco based Startup)

Software Engineering Intern | (Upcoming) January – February, 2026

I will be working closely with the founders on developing a hardware-based, open-source AI assistant that computes locally.

Edexia (Y-Combinator Startup)

AI Research Intern | September - October, 2025

- Engaged in extensive prompt engineering to enable the company's product to shift from providing feedback to marking student high school assignments.
- High accuracy instruction sets were developed for senior economics research assignment and written essay tasks.

Dualis International / The Macro Group

International Tax Administrator | March, 2024 – June, 2025

- Built dualistax.com using low-code tools. Created marketing material including all website content, blogs, signatures, letterheads, and document templates. Created a simple .MSG to .EML converter in Python.
- Facilitated implementation of IT systems during demerger and rebrand to Dualis International.
- Prepared US tax returns for expats, wrote letters of advocacy for the removal of tax penalties.

Private Tutoring

2024 – present

- I have tutored high school students in Specialist Maths, Physics, and Economics. Employed 5 casual staff.
- Exhibited exceptional communication and explanation skills with students at a wide range of ability levels.

Additional work experience: Alderley Arms Hotel, Nike Brisbane City, Fortitude Valley McDonald's

LEADERSHIP

University of Queensland Innovation and Entrepreneurship Society

President | 2026 *Promoted from:* Events Director | 2025 *Promoted from:* Operations | 2024

- President of Australia's largest university entrepreneurship society with over 700 paid members, a team of approximately 20 executives, 35+ yearly events, 8k+ social media followers and over 62 million yearly social media impressions.
- Coordinated an app development hackathon with a 10k prize pool, 6k budget, 80+ participants, and 10+ mentors.
- Personally organised a one-week trip to Sydney with approximately 20 participants visiting 12 top startups and tech firms.
- Presented speeches, presentations, and workshops with audiences of 100+ attendees.

PROJECTS

TryGena.app – a tool to help business understand their product's AI visibility

Weekend of Startups Hackathon 3rd Place 2025 | \$2000 prize

- Developed a full stack web application in a weekend that benchmarks how business and their products appear in AI recommendations based on simulated queries. These queries are then benchmarked and statistics are presented.
- Custom HTML, CSS, and JavaScript frontend, fastAPI python backend. Hosted on Render utilizing CI/CD principles and suitable API key hiding. Website is available at TryGena.app kindly contact me to refill OpenAI credits

Neural network image classification on Fashion MNIST dataset

- Utilised object orientated programming principles to create modular code to facilitate rudimentary architecture research on fully connected neural networks, reaching 89% image classification accuracy.
- Implemented existing convolutional network architectures to reach 93% accuracy

Languages Python, Java, C, SQL, R, Assembly

Profiles [Linkedin](#), [Github](#)

Volunteering Red Frogs, volunteer tutoring, Youth Group Leader at NEB Church, VI fitness with Achilles International

Hobbies piano, running, hiking, surfing, gym
